

# CRAZY POKER<sup>SM</sup>

Crazy 4 Poker is an easy game to master. It offers play against the dealer and an optional Queens Up side bet.

## HOW TO PLAY

You receive five cards to make your best four-card poker hand. A four-card straight is a straight, a four-card flush is a flush, etc.

## PLAYER VS. DEALER

Make equal bets on the ante and Super Bonus spots. After seeing your cards, you can fold or stay in the game by making the play wager. The play wager must match your ante unless you have a pair of aces or better. If you have at least a pair of aces, you may bet up to 3x your ante. The dealer qualifies with a king-high or better. When you beat the dealer's qualifying hand, your ante and play bets win even money. When the dealer qualifies and beats your hand, your ante and play bets lose. When the dealer does not qualify, your play bet wins, and your ante bet pushes. Super Bonus and Queens Up wagers are resolved normally.

## SUPER BONUS

The Super Bonus wins if you have a straight or better. Failure to get at least a straight does not result in an automatic loss. Your Super Bonus bet pushes if you tie or beat the dealer with less than a straight. If the dealer beats you and your hand does not contain a straight or better, your ante, play, and Super Bonus bets lose. However, if the dealer beats you and your hand does contain a straight or better, your Super Bonus bet is paid, and your original Super Bonus wager is not removed. See layout for odds.

## QUEENS UP

The Queens Up bonus bet wins when you receive a pair of queens or better. See layout for odds. Winning Queens Up wagers are paid regardless of the dealer's hand.
