

**CAESARS WINDSOR "CANADIAN POT LIMIT OMAHA CHAMPIONSHIP"
POT LIMIT OMAHA POKER TOURNAMENT
January 26-27, 2019
RULES AND REGULATIONS
("TOURNAMENT RULES)**

HOW TO PARTICIPATE

1. The Canadian Pot Limit Omaha Championship, Pot Limit Omaha Tournament will be held over two days starting on Saturday January 26, 2019 at 2:15 pm and Sunday January 27, 2019 at 2:15 pm. Saturday January 26, 2019 is Day 1 with the final round taking place on Sunday January 27, 2019 at 2:15pm. Please refer to section 4.
2. Participation is reserved with a tournament buy-in of Cdn. \$600.00. This tournament will be subject to an "administration fee" of \$60.00. Registration may take place at the Poker Room registration desk. Once registered, payment will be made reserving participation in the tournament.
3. All buy-ins as well as administration fees, will be payable in Canadian funds. All paid or won registrations are transferable as long as requirements of the tournament rules and regulations are met. Transfer of paid registration is not permitted over the phone.
4. Space is limited to 150 players after which alternates may be seated. Registration will be open until the end of the second break (level 9). Play on Day 1 will continue until the end of level 16 (\$1500-\$3000 Blinds).
5. There will be a minimum of two (2) players per table and a maximum of nine (9) players per table.
6. Players will be assigned a table and seat number during registration on the day of the tournament on a first-come, first-serve basis.
7. All current tournament rules apply with the following "Pot Limit Omaha" rule changes:
 - Players will be dealt four (4) cards and must create a five (5) card poker hand using only two (2) of their hole cards and three (3) community cards.
 - Betting structure will be "pot limit".
 - If a wager is made that exceeds the pot size, the surplus will be given back to the bettor as soon as possible, and the amount will be reduced to the maximum allowable.
 - The dealer or any player in the game can and should call attention to a wager that appears to exceed the pot size.
 - The maximum amount a player can raise is the amount in the pot after the call is made.
 - In pot-limit play the small blind is treated as if it were the same size of the big blind in computing pot size. In such a structure, a player can open for a maximum of four times the size of the big blind.
 - Players are entitled to be informed of the pot size in pot-limit games only.

TOURNAMENT RULES

8. Each player will begin with Cdn. \$20,000 in tournament chips. A player optional \$5 Dealer Appreciation fee may be charged per entry to receive \$500 in additional

tournament chips, which are above the equal amount of starting chips received for participating in the tournament. At the end of Level 16 the remaining players will have their tournament chips counted and they will initial the amounts. For the Final Round, the remaining players will be returned their bankroll (the total value of chips the patron finished with during Day 1). The Finals will commence with the blinds starting at level 17 (\$2000-\$4000 Blinds). Seating for the Finals will be drawn randomly prior to the start of play on Sunday.

9. During the second break players may forfeit their remaining chips and re-enter into the tournament as an alternate. All rules with regards to alternates and any alternate list will apply.
10. A change of seat is not allowed after play starts, except as assigned by Management.
11. The appropriate starting amount of chips will be placed on the table for each paid player at the beginning of the event, whether the person is present or not. Absent players will be dealt in and all chips necessary for blinds will be put into the pot.
12. If a paid entrant is absent at the start of a tournament, an effort will be made to locate and contact the player. If the player requests that the chips be left in place until arrival, the request will be honoured. If we are unable to contact the player, the chips will be removed from play at the discretion of Management any time after a new betting level has begun or a half-hour has elapsed, whichever occurs first.
13. The use of alternates will be available until the start of level 9, at which time the tournament registration will be closed.
14. Alternates who purchase a seat prior to registration closing (end of level 9) may be seated at any time during the event at the discretion of Management.
15. Alternates will begin with \$20,000 in tournament chips at the time they are seated. Players eliminated from the event may return as an alternate up to tournament registration closing.
16. An absent player is always dealt a hand and will be put up for blinds and antes.
17. If the player is not present (within arm's length of their seat) when it becomes his/her turn to act, the hand is dead. This includes situations in which a live blind is not present to act, since an absent player cannot exercise the option to raise.
18. A player must be present at the table to stop the action by calling "time".
19. There is a signal designating the end of a betting level. The new limits apply on the next deal (a deal begins with the first riffle of the shuffle).
20. Limits and blinds are raised at regularly scheduled intervals. Blinds will begin \$25-\$50 and move upward as noted below.

21. The lowest denomination of chip in play will be removed from the table when it is no longer needed in the blind or ante structure. All lower denomination chips that are of sufficient quantity for a new chip will be changed up directly. The method for removal of odd chips is to deal one card to a player for each odd chip possessed. Cards are dealt clockwise starting with seat number one, with each player receiving all cards before any cards are dealt to the next player. The player with the highest card by suit (Spade, Heart, Diamond then Club) gets enough odd chips to exchange for a new chip. The second-highest card gets to exchange for the next chip, and so forth, until all lower denomination chips are exchanged. If an odd number of lower denomination chips are left after this process, the player with the highest card remaining will receive a new chip if he/she has half or more of the quantity of lower denomination chips needed, otherwise nothing.
22. As players are eliminated, tables are broken in a pre-set order, with players from the broken tables assigned to empty seats at other tables.

23. The number of players at each table will be kept reasonably balanced by the transfer of a player as needed. With more than two tables, table size will be kept within three players. With two tables or less, table size will be kept within one player.
24. In all events, there is a redraw for seating when the field is reduced to one table.
25. A player who declares all-in and loses the pot, then discovers that one or more chips were hidden, is not entitled to benefit from this. That player is eliminated from the tournament if the opponent had sufficient chips to cover the hidden ones. If another deal has not yet started, a tournament official may rule the chips belong to the opponent who won that pot, if that obviously would have happened with the chips out in plain view. If the next deal has started, the discovered chips are removed from the tournament.
26. If a player lacks sufficient chips for a blind or a forced bet, the player is entitled to get action on whatever amount of money remains. A player who posts a short blind and wins does not need to make up the blind.
27. All players must leave their seat immediately after being eliminated from an event.
28. Showing cards from a live hand during the action injures the rights of other players still competing in an event who wish to see contestants eliminated. A player may not show any cards during a deal. If a player shows a card, that hand may be ruled dead and/or the player penalized. This penalized action could result in the player being dealt out for a length of time at Management's discretion.
29. Inappropriate behaviour, such as throwing cards that go off the table, may be punished with a penalty such as being dealt out for a length of time. A severe infraction, such as abusive or disruptive behaviour, may be punished by eviction from the tournament at the discretion of Management.
30. The deck is not changed on request. Decks change when the dealers change, unless there is a damaged card.
31. In all tournament games using a dealer button, the starting position of the button is determined by dealing for the high card unless seat positions are drawn for randomly, in which case, the dealer button will begin at seat number one position.
32. The dealer button remains in position until the appropriate blinds are taken. Players must post all blinds every round. As a result of this, the button may stay in front of the same player for two consecutive hands.
33. In heads-up play with two blinds, the small blind is on the button.
34. All hands will be turned face-up whenever a player is all in and betting action is complete.
35. If two or more players go broke during the same hand, the player starting the hand with the larger amount of money finishes in the higher tournament place for point and cash awards.
36. Management is not required to rule on any private deals, side bets, or redistribution of the prize pool among finalists.

37. The official tournament language is English and conversing in any other language will not be permitted unless through a Caesars Windsor representative.
38. Private agreements by remaining players in a Tournament regarding distribution of the prize pool are not condoned. However, if such an agreement is made, tournament officials have the option of ensuring that it is carried out by paying those amounts. Any private agreement that excludes one or more active competitors is improper by definition and Management reserves the right to evict players from the tournament.
